PROFESSIONAL SUMMARY

Dynamic professional with extensive experience ready to excel in this role. Possesses exceptional leadership, problem-solving, and strategic planning abilities, fostering a collaborative team environment while adapting to changing circumstances. Recognized for consistently delivering impactful results through effective communication and a steadfast commitment to integrity and accountability. Eager to leverage these skills to drive success and contribute to organizational goals.

SKILLS

ISO / TS 16949: 9001 Internal Auditor	8D Reports Preparation , Cycle Time Study
Problem Solving Skills (4W1H Technique)	Analytical & Managerial Skills,TPM
Production Planning Control	FMEA, Kaizens & work order , Routing
Tool Maintenance	

PROFESSIONAL EXPERIENCE

SENIOR OFFICER - BATTERY ASSEMBLY 11/2025 to Current Exide Industries Limited , Hosur, India

- Managed assembly operations using PQSDCE methodology, improving productivity by 15%, reducing defects by 20%, maintaining 98% FPY and on-time delivery, achieving zero safety incidents, and reducing scrap/waste costs by 10–12% through 5S and continuous improvement initiatives.
- Conducted stock reconciliation and managed inventory planning for BOP, FG, and SIP materials to ensure accurate inventory, and uninterrupted production.
- Upkeep and maintain quality management systems, including IATF, OHSAS, and EMS.
- Implemented TQM and TPM practices to improve equipment reliability, operational efficiency, and product quality.
- Ensured compliance with MES for production tracking and reporting.

SENIOR ENGINEER–PRODUCTION/ASSEMBLY 07/2019 to 11/2025 M/S. AMARARAJA ENERGY & MOBILITY LTD., Chittoor, India

- Supervised battery production and assembly lines to meet quality and output targets.
- Led and trained teams, ensuring efficient manpower utilization.
- Implemented Lean, Kaizen, and Six Sigma for process optimization.
- Ensured compliance with IATF 16949 and ISO 9001/14001 standards.
- Resolved quality issues using CAPA and 8D methodologies.
- Managed equipment and tooling maintenance to reduce downtime.
- Tracked KPIs to support data-driven process improvements.
- Enforced EHS policies, 5S practices, and workplace safety.
- Handled customer audits and led complaint resolution.
- Implemented MES, traceability systems, and supported NPI projects.
- Area: Plate Preparation & Assembly | Segment: ASBU 4W Flooded Batteries
- Role: In-charge of PLP/Assembly, leading 4 sections in production and assembly operations.

ACCOMPLISHMENTS	• Supported Six Sigma Black Belt project to reduce positive plate scrap and rejection in 4-wheeler battery assembly. • Improved negative plate uptime from 25% to 65% and reduced scrap through process optimization. • Modified Orifice Plate tooling to eliminate pinholes and improve active material distribution and battery discharge performance. • Implemented SMED to reduce changeover time and improve productivity. • Improved uptime in stamped grid pasting line by optimizing carrier mat setup, spare provisions, shaft addition, and increasing paper roll size from 1000m to 1800m. • Led QC Circle initiatives to reduce plate damage, rework, cost, and operator fatigue. • Executed Six Sigma Green Belt project to eliminate belt issues and plate defects, reducing customer complaints and improving quality and performance.
